

# STONY PLAIN SUN

VOLUME NINE

STONY PLAIN, ALBERTA, THURSDAY, NOV. 29, 1928.

Whole Number 434

Inga Municipal District,  
NO. 520.

**COLLECTION OF TAXES.**  
E. H. Pidgeon will be in Stony Plain on Saturday, December 1st, and on Wednesday, December 12th, from 1 p.m. to 6 p.m. each day, to collect taxes on account of the Municipal District of Inga Nov. 520.

E. H. PIDGEON,  
Secretary-Treasurer.  
M. D. of Inga No. 520.

## NOTICE !

Mr H D Laird wishes to announce that the office of the late F. W. Lundy will be conducted as usual; and that Mr Laird will be in Stony Plain the early part of the week to transact any business in connection therewith.

## Notice to Threshermen.

Owners or Operators of Threshing Machines and Combined Harvesters are required to send to the Department of Agriculture at the end of the threshing season a return showing the number of acres and number of bushels threshed. This applies whether the machine has been used for custom work or only for the owner's crop.

Special forms for these returns may be secured from this  
Publicity Branch,  
Department of Agriculture,  
Edmonton.

The Ladies' Aid of the United Church will hold their **ANNUAL BAZAAR** in the **TOWN HALL, SATURDAY, DECEMBER 1st,** at One P.M. **Plain Sewing, Fancy Work, Home Cooking and Candy, and a Fish Pond for the Children.** **Afternoon Tea and Supper will be served**

U.F.W.A. LEAP YEAR  
**DANCE!**  
HOLBORN HALL,  
Friday, December 7th  
BARNES' ORCHESTRA.

## A 24-Hour Service

Electric power from Edmonton is now being used in Ledue, the change from the local plant having been made by the Calgary Power Co. who have an arrangement with Edmonton for a supply of juice until their line from the Ghost River Hydro plant is completed. This also means that Ledue is now enjoying a **TWENTY-FOUR HOUR SERVICE.**

## Friday's Fire.

Shortly after 3 on Friday afternoon an alarm summoned the fire brigade up to John Schultz's house, on the hill. Apparently an overheated chimney had set fire to the casing, and this blazed up. The smoldering fire was difficult to reach, necessitating tearing open several walls, but the fire was finally subdued. On the way up to the fire, chemical engine No. 2, which was dragging at the tail of a wagon, was capsized, and incapacitated for immediate use. The damage was covered by insurance.

## Meeting of Walther League.

A meeting of the Walther League members was held in St Matthew Schoolhouse No. 2, and was opened with prayer and singing "A Mighty Fortress is Our God"; followed by a half hour Bible study. The minutes of previous meeting were then read and adopted.

A prospective member, due for initiation, failed to appear. Members were advised to notify the Hospice Committee when any of our people move to Edmonton.

Members are asked to aid the Messenger representative in his subscription campaign. A motion carried that the losers in the Christmas Seals campaign are to entertain the winners.

The meeting favored the proposition of the League presenting a play the coming season. Messrs W Rosnau, Ph Enders and W Miller were appointed a committee to handle the affair. Everything pertaining to the play is to be left to this committee.

## LOCAL NEWS.

Mr and Mrs A Meredith are in Banff this week.

Mr F E LeBrie of Edson, with his staff of carpenters, has just finished the construction of a reception room at the local depot.

An Edmonton law firm is said to intend opening an office in Stony.

A start has been made on the construction of a Catholic church on Second St.

The Family Herald and Weekly Star of Montreal with its wonderful improvements has no peer as an agricultural paper on this continent. The best Canadian farmers know that.

R. C. services will be held in the Town Hall on Sunday next at 11.30 a.m.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M M Meeklenburg, eye specialist, 10159 101st St., Edmonton.

## Attempted Burglary

What looked like an attempt to burglarize the local depot was made on Saturday evening, during the absence of the resident agent and his family, between 10 and 11. A storm sash had been pried off with an axe. Apparently the burglar had been scared off, as the axe was left as a souvenir.

## Van der Schaaf—Zucht

In Edmonton, on Saturday, Nov. 17, Miss Lydia Zucht, daughter of Mr and Mrs M Zucht, was united in marriage to Mr Arthur Van der Schaaf, both of Stony Plain. The happy young couple returned from their honeymoon Thursday evening, and were given a very enthusiastic chivari by the young people of town and district. Art appeared on the piazza of his residence, made a little speech, and gave the captain of the serenaders a handsome sum.

## Miller—Traut

A very pretty wedding was celebrated on Sunday last, November 25th, at the Glory Hills Reform Church, when Miss Emelia Traut (daughter of Mr and Mrs John Traut), of Glory Hills.

Rev C H Reppert, the pastor, officiated, and the edifice was well filled with relatives and friends of the contracting parties.

After the ceremony the party drove to the residence of the bridegroom's parents, where a wedding dinner was awaiting. Over a hundred guests did ample justice to all the good things provided. At the close, the guests departed wishing the happy couple long life and prosperity.

### Modern Aladdin's Lamps

The average man and woman realizes that the world is making progress at an ever accelerated pace; that in the space of a few brief years great improvements and more wonderful inventions are made to add to the comfort and pleasure of life than were recorded in many centuries of the past. There was a time when people received news of any great innovation with extreme scepticism, and ridiculed the idea of such things being possible. Today, the world is prepared to accept almost anything as possible.

However, it is the occurrence of some anniversary which actually forces upon us a realization of just how great and how rapid is the progress being made by the human race. Such an anniversary came last October when recognition was paid to Thomas A. Edison, in commemoration of the golden jubilee of what is generally accepted as being the greatest of his many great inventions, the incandescent electric lamp.

The tale of Aladdin and his wonderful lamp has delighted readers, youthful and adult, for many generations, but the accomplishments of man in the world of electricity following Edison's invention of his marvellous lamp, and the series of amazing inventions since then, and all more or less directly connected with Edison's discovery, in many respects surpass the most vivid imaginings of the Arabian Nights tale.

In this age of electricity, with our streets, homes and places of business lighted by the invisible current, our machinery operated by it, our homes heated by it, with every conceivable household device dependent upon it, with it as the agent to flash our news and messages around the world, and because of which we are enabled to talk under the oceans and through the air, it becomes well-nigh impossible to imagine a world lighted by the old kerosene lamp and tallow candle. Yet it is only fifty years since the world so labored in comparative darkness.

Had Edison, the wizard of Menlo Park, not succeeded in his effort to produce the incandescent lamp, would the world today enjoy all the pleasure and profit of the radio, which depends upon the use of the vacuum tube? Would the health giving rays of the quartz lamp be conferring benefits upon stricken humanity. No. To Thomas A. Edison the world is forever debtor for his great contribution to humanity's welfare and the world's wealth.

Fifty years! Not equal to the average span of a man's life. Yet Edison within that space of time has given us not only the incandescent lamp and all that has followed that initial invention, but to him belongs the credit of capturing the human voice upon a cylinder of wax, thus giving us the gramophone. It is thanks to Edison that we are able to produce pictures in which people move as they do in actual life, an invention that is profoundly affecting the life and thought of the world. And now we have the talking movies, the result of a combination of two of Edison's original inventions.

Within an even shorter space of time the automobile has not only been brought to its present state of efficiency and power, but it has been adopted all over the world, completely revolutionizing our manner of living and our mode of travel, and enormously broadening our knowledge of the world in which we live. Within the short space of a decade we have witnessed the airplane take its place as an accepted instrument in our modern life, and even on these Western prairies it is now a daily commonplace to witness these new messengers winging their speedy way from city to city carrying passengers, mail and express.

Science and invention is thus conferring upon this generation new wonders and new facilities of power, greater opportunities for pleasure and profit, or, ill-used, greater possibilities for catastrophe. With all the powers now being placed so rapidly under his control, man must continue to mount higher in intelligence and in all those moral attributes which alone will make him fully capable of rightly using the great possessions entrusted to him, and the number and variety of which increases almost hourly. For it must be remembered that in the final analysis the use or abuse, the deriving of good or the suffering of evil, arising out of these wonderful scientific achievements, depends upon man himself and the attitude he takes towards life and all its realities and possibilities.

#### Trees Used in Making Paper

Spruce, balsam, hemlock, and poplar together made up over 97 per cent. of the total wood used by the pulp and paper industry in Canada in 1928.

More than 1,000,000 bags of coffee will be raised in Venezuela this year.

Several coal mines in Ireland are being abandoned.

#### Woolen Mill For B.C.

British interests have recently established a plant for the manufacture of worsteds at Victoria, British Columbia. This plant has 6,400 spindles and promises to prove an important industry for the capital of British Columbia.

In England 2,500 automobiles are being delivered to new owners every week.

## Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour. Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

#### In Memory Of Colonel McCrae

Oak Tree From Georgia Planted On McGill College Campus

During Armistice Day a two-year-old oak tree was planted on the McGill campus, at the suggestion, in memory of Col. John McCrae, author of "In Flanders Fields." The tree was sent by the State Teachers College, of the University of Georgia, on whose campus a similar planting took place at the same time. It is noteworthy that the best known and most beautiful poem, inspired by the Great War, should have been written by a Canadian, and the action of the Georgia College is also a friendly gesture which will be much appreciated on this side of the border.

### RHEUMATIC VICTIMS

Can Find Relief Through Building Up the Blood

Pain is the symptom of rheumatism that every victim recognizes, and he generally attributes the trouble to cold, damp or changeable weather. But doctors know that this blood is a marked characteristic of the trouble. Trying to cure rheumatism while the blood remains thin and poor, is an impossible task because there is nothing to build on. A tonic like Dr. Williams' Pink Pills that enriches the blood and frees it from poisonous impurities soon banishes rheumatism. So long as the blood is maintained in a healthy condition the trouble will not return. This is why Dr. Williams' Pink Pills have been proved in hundreds of cases; here is one:—Mr. J. W. Rose, R.R. 2, Alberta, writes: "I have been a sufferer from rheumatism and although I tried a great many different remedies, I got no permanent relief until after I took Dr. Williams' Pink Pills. The trouble was treated mostly by my shoulders, and at times was so bad that my right arm was almost useless. I was unable to do much work and great inconvenience. My attention was directed to Dr. Williams' Pink Pills through an advertisement in our newspaper, and I decided to try them. I took the pills according to directions with the result that the rheumatism has left me, and I have never had a twinge of it since. If this needs the use of any rheumatic sufferer my advice is to try Dr. Williams' Pink Pills at once."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

#### Our Great Agricultural Wealth

Canada the Best Country in the World For Farming

"I can say without any hesitation, that Canada is the best country in the world for farming at the present time. It has greater possibilities, and there are indications that there is greater stability and prosperity than can be found in any other country," said Dr. E. B. Archibald, director in charge of the Dominion Experimental Farm at Ottawa, addressing the Young Men's Canadian Club at Montreal. Dr. Archibald said, the crops in Canada are worth \$1,167,000,000, which alone was equal to the fisheries and forests all put together; dairy produce reached \$300,000,000 which was equal to the total of the fisheries and mines; wheat exports \$422,000,000, or a third of the country's total exports and that there were over 225,000,000 acres capable of producing, but not occupied. He estimated the Dominion's agricultural wealth at \$7,820,000,000, and that at least \$3,500,000,000 of capital was invested in agriculture.

#### The Only Alternative

After walking out with Jean for some months Sandy ventured to propose to her, and was accepted. Questioned by his prospective mother-in-law whether he was in a position to keep a wife, Sandy confidently replied in the affirmative, placing the matter beyond all doubt by volunteering this information: "There's hardly a moribund but what I leave some o' ma' parish; in fact, if I dinna get a wife soon I maun get another pig."

#### Need Standard Grain Crop

Hon. W. R. Motherwell, Minister of Agriculture, addressing the Canadian Club of Fort William, stressed the need of western farmers raising the standard of grain which they produce, and reducing the varieties of wheat from 30 or 40 now grown to three or four kinds, which should be regarded as standard and be the only kinds admitted to No. 1 grade.

Minnard's Liniment for Grippes.

W. N. U. 3761

### The Right Soap For Baby's Skin

In the care of baby's tender skin Cuticura Soap is the mother's favorite. Not only is it unrivaled in purity and refreshing fragrance but its gentle emollient properties are usually sufficient to allay minor irritations and promote skin health.

Sample Pack Free by Mail. Address: Canadian Distributors, "Washburn, Ltd., Montreal, From Box 26, Montreal 26 and 27, Quebec.

### South Africa Buying Certified Seed Potatoes

Varieties Sent From Canada Last Year Gave Good Results

Trade with South Africa in certified seed potatoes from Canada is being promoted—another tribute to the excellence of our spuds.

Last spring small quantities of Irish Cobbler, Green Mountain and Dooley varieties were shipped to South Africa from Eastern Canada. They arrived in Capetown in excellent condition and gave good results there.

The South African growers' preferred Dooley was more suitable to their special requirements. This season they are testing, at their own request, other varieties—small sized seed, of two to three ounces, from certified crops.

The British Columbia inspector is obtaining for this purpose quantities of two to three ounce seed of the following varieties:—Up-to-date, Sir Walter Raleigh, Burbank and Epicure. As there was no crop of certified Epicure in British Columbia this season Wisconsin Pride and Bliss Triumph were substituted for that variety. Results in South Africa from this British Columbia certified seed will be closely watched and may lead to the development of a worthwhile trade.

Long Standing Asthma. Many have suffered so long from asthma and have tried so many so-called remedies they think that there is no real help for them. They should read the letters received by the manufacturers of Dr. J. D. Kellogg's Asthma Remedy from hundreds of cases once as desperate as their own. Even in long-neglected cases this famous preparation brings prompt help.

#### Aviation in Canada

Aviation is in a healthier condition in Canada than at any previous time in its history. Development has not been rapid nor has it been forced into unseasonal channels. Every effort has been made to put it on sound lines, as far as possible self-sustaining, and of direct value to the country as a whole.

### All-Red Air Route

Important Developments in Inter-Province Communications Expected Soon

An all-red air route around the world is seen as a strong possibility in the near future by J. A. Wilson, controller of civil aviation, who recently returned from a sojourn of two months in the British Isles and Europe. "Enormous developments in inter-Province communication may be expected within the next few years," Mr. Wilson said. "While efforts so far have been to some extent concentrated on flights to India and Africa, the eyes of British flyers are turning towards Canada." The R-100 and R-101 will shortly be ready for their trial trips, and in the early spring would be ready for trans-Atlantic trips to Montreal. Mr. Wilson viewed both of the enormous dirigibles and discussed the contemplated flights with air officials in England.

Certain morbid conditions must exist in the stomach and intestines to encourage worms, and they will exist as long as these morbid conditions permit them to. To be rid of them and spare the child suffering, use Miller's Worm Powders. They will correct the digestive irregularities by destroying the worms, conditions favorable to worms will disappear, and the child will have no more suffering from that cause.

#### Hemp Growing in Manitoba

Hemp growing is gradually assuming promising proportions in Western Canada. Coultis the acreage of 1927 has been devoted to hemp growing at Portage la Prairie, and the yield is very good. The Manitoba Cordage Company Limited reports an increasing demand for its products.

#### Check Colds with Minard's Liniment.

#### Milk For Dairy Factories

The approximate amount of milk required to supply dairy factories in Canada during 1928, based on the quantity of milk delivered and the equivalent in milk of the butter fat content of the cream delivered, was 7,118,940,782 pounds.

To break a cold harmlessly and in a hurry try an Aspirin tablet. And for headache. The action of Aspirin is very efficient, too, in cases of neuralgia, neuritis, even rheumatism and lumbago! And there's no after effect; doctors give Aspirin to children—often infants. Whenever there's pain, think of Aspirin. The genuine Aspirin has Bayer on the box and on every tablet. All druggists, with proven directions.

**Physicians prescribe Aspirin; it does NOT affect the heart**

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is true that Aspirin causes Bayer Manufacture, it does not cause Bayer Manufacture. The tablets will be stamped with their "Bayer Cross" trademark.

## Some Side Lights On The Immigration Question As Given By Hon. Chas. Dunning

The following is an extract from a speech delivered by Hon. Chas. Dunning to the Canada Club in London:

"If you ask me what the result of the harvester experiment from Great Britain will be, I say that it will be exactly the same kind of result that has followed the harvester excursions from Eastern Canada. A great many of the men—I do not know how many, maybe half, maybe less than half—will remain. A very considerable proportion of the balance, judging from my experience, will return. After all, the migration theorists—and their names is legion—base their theories on the idea of a man finding it easy to get to Canada and hard to get back. From the point of view of one who went there without any means of getting back, and when there was no paternal government to help them in getting back, I can assure you that there comes in the life of every immigrant a period of homesickness, a period of heartbreak. Many say, 'The only reason why we did not get out was because we had to walk, and it was too far,' and too much paternalism just at that time is not a good thing.

Now turn it around. Knowing the Englishman, and being one, I say that if you try to persuade an Englishman to do something he is generally suspicious of you. I am not at all sure that it will not be found that the best way to get British immigration is to say to the Britisher, 'Come and look up over, we do not care much whether you stay or not individually. If you like us and like our country, you are welcome; if you don't like us and don't like our country, for Heaven's sake, go back home.' I am convinced—and it is the basis of the harvester experiment—that that will constitute a greater appeal to the Britisher than trying to convey to him that there is an Eldorado there, and that he has only to come over and accept it. Most of them won't believe such a thing, and those who are foolish enough to believe it are going to be the worst advertisement that Canada can possibly get.

"I am often asked this question, 'What about taking people out there and settling them on farms of their own?' Is not that the best way to develop a great agricultural community in Canada? My personal experience, like the experience of thousands of others from this country, tends to make me doubtful of any large measure of success attending schemes which have for their object the starting of people on farms of their own in Canada immediately they go out, without their having previous Western Canadian farming experience. Such schemes are rarely conceived, but they are based upon that old fallacy of the city dweller that anybody can farm. In these days the business of agriculture is a highly scientific and highly commercial business; it requires experience. If you doubt that, ask anyone; ask the prime minister—who is trying it; what his experience has been; ask any one of the thousands of business men, bankers, and lawyers in Canada who own farms and who try to make money running them; if it is an easy business, and even a lawyer will tell you that law is a great deal more remunerative.

Thousands in the rural districts of Cuba are out of work.

Landlord: "Why have you put your coffee on that chair?"  
Lodger: "It is so weak that I thought it needed a rest."—Sondag-nisse-Strix, Stockholm.

W. N. U. 1761

### Aid Sheep Industry

Quebec Farmers Receive High Grade

Seven hundred choice ewe lambs have been selected by the Federal and Provincial Departments of Agriculture and sold to the farmers in the Province of Quebec this fall. The lambs are the offspring of improved sires and have been distributed at the rate of 1,000 to 1,500 a year for several seasons for the improvement of stock. The cost to the farmer is from \$10 to \$11 a head.

### Winnipeg Newspaper Union

*Fashion*

John Jones, the famous prospector, who plans to go to Fox inlet, Badin Land, next winter. He is seeking the biggest silver, zinc and lead proposition in the Hudson Bay area, and bases his hope of finding it on information received from Major Burwash, chief government geologist. Johnny says that there will be about eight men in the party as well as a supply of huskie dogs and his Arctic sleigh, a specially constructed machine capable of about 60 miles an hour. Asked what area looked the best to him in the north now, Jones said: "Porcupine; it hasn't any equal. There are some more Hollingers on the way; and by the way, Hollinger isn't by any means done."

### FAMOUS PROSPECTOR

John Jones, the famous prospector, who plans to go to Fox inlet, Badin Land, next winter. He is seeking the biggest silver, zinc and lead proposition in the Hudson Bay area, and bases his hope of finding it on information received from Major Burwash, chief government geologist. Johnny says that there will be about eight men in the party as well as a supply of huskie dogs and his Arctic sleigh, a specially constructed machine capable of about 60 miles an hour. Asked what area looked the best to him in the north now, Jones said: "Porcupine; it hasn't any equal. There are some more Hollingers on the way; and by the way, Hollinger isn't by any means done."

### Signs of Prosperity

Amount of Railroad Traffic An Indication of Prosperous Times

"The real sign of prosperity in the Canadian West at this time of the year is the amount of local rail traffic," said C. E. McPherson, head of the passenger department of the Canadian Pacific western lines, on his return from a trip through the Prairie Provinces. "The business being done through our smaller towns this year to commercial centres is very large, and by that fact can be judged the prosperity of the Western farmer, who this year has threshed a large crop of good quality and has realized on part of it at least." Mr. McPherson said that travel from the Prairie Provinces to the Old Country and the East this Christmas would be heavy, and that the Canadian Pacific would run a greater number of specials from Saint John than ever before.

### First Crop Paid For Land

Instances Quoted Where First Returns Covered Cost Of Purchase

Instances of the payment for farm land from the proceeds of the first wheat crops planted upon it are recorded in the Leithbridge Herald in respect to farms in Milk River Valley. E. J. Harris bought a quarter section at \$15 per acre without interest; raised 10,000 bushels, which in parts yielded 60 bushels to the acre and more than paid for the land. In this same district Mr. Loft and N. Pederson had previously purchased a half section at \$23 per acre. Half of last year's crop paid for the land in full; and this year they threshed a crop of 36 bushels per acre of stubbled wheat, and now they have just closed a deal for one and a half sections of land adjoining the former holdings.

### IN THE LAND OF EVANGELINE

Tourist travel through beautiful Nova Scotia is annually increasing by leaps and bounds. From apple-blossom time when the Annapolis Valley is a veritable fairy-land until the last big game hunter leaves in the late fall, a steady stream of admiring visitors wander through the highways and by-ways from Yarmouth to Halifax. This new station of the Dominion Atlantic Railway at Grand Pre, built on the edge of the Grand Pre Provincial Park, is testimony to the appeal of Longfellow's immortal Evangeline. Thousands, each year, and from all parts of the Continent and the world come as pilgrims to the scene of the tragic Acadian Expulsion.

## Many Letters are Evidence of Appreciation of Canadian Hospitality by American Tourists

The end of the busiest tourist season which Canada has ever experienced has brought many letters of appreciation of Canadian courtesy and hospitality, says the Department of the Interior through its Natural Resources Intelligence Service. This Service, which is in close contact with the tourist traffic and has handled many thousands of enquiries for information on Canada, is happy to broadcast the news that practically no complaints have been received this season of unfair treatment of the tourists.

A year ago it was felt that it was necessary to issue a warning. "Don't Overcharge the Tourist" ran the message which was sent out by radio and through the press. That this slogan has been adopted by Canadian business people, and the thousands of persons who enter and look after the welfare of the visitors, seems certain from the tenor of the correspondence so far received. It is surprising how many of the persons who received maps, or tourist literature, or descriptions of canoe routes, send in friendly notes of appreciation after the conclusion of their trips. The secretary of a golf club in Pennsylvania, wrote recently:—

"I have just returned from a very delightful tour of Canada and was very much impressed with the beauty of the place, the good roads, the courteous treatment of the people and the very moderate prices charged the tourists."

A member of a fishing party that had visited the Rainy Lake District, wrote:—

"We were particularly impressed by the reception we received from everyone on that side from the officials all the way down the line to the native Indians. Everyone was friendly, cordial and very willing to help us in any way, shape or manner that they could."

Among the correspondents are many who have visited Canada in each successive season over periods of 5 to 10 years. It is particularly gratifying to read from a Cleveland business man's letter as follows:—

"I merely want to express my appreciation of the very fine way you take care of tourists in the Dominion. It may be of interest to you to know that I have spent the greater portion of my vacation for the past nine summers in Canada, and I have always found not only the private citizen, but holders of public office, courteous and ever willing to be of assistance."

"In view of this it is hardly necessary to say that I have been delighted with the kind of treatment I received, with the people I have met, and also that in my opinion, there isn't any other place to spend a vacation."

Everyone has come in contact with the system still more or less in vogue, of chain selling of merchandise, especially silk hosiery and gadgets for the car, etc. Our American friends are chain selling Canada's scenery and getting real pleasure out of bringing their friends to the Dominion. The president of an athletic club in Indiana writing about his annual vacation in Ontario, says:—

"From a small start of one member making this trip five years ago,

this year we had more than thirty who went up in several parties. There will be more next year, at least forty."

It is surprising the proportion of the tourists who wish to get away back in the wilds on fishing and canoeing trips. The department has had requests for information on canoe routes in all the provinces and territories from the Maritimes to the Yukon. Others not so ambitious as to undertake a canoe trip of two or three hundred, or a thousand miles want to know where to locate a lodge on some quiet restful lake where the fishing is good. The full effect of the chain selling of news on Canada is to be seen from the experience of the member of a fishing party, who having had a wonderful and successful trip into the Laurentians, wrote a brief item which was published in the Sunday edition of a large city daily. "Within seven days' time," runs the account of this experience, "the owner of the lodge where we camped had received seven enquiries by mail, and our Mr.—who is mentioned in the article received several personal calls by interested parties, a number of phone calls, and some letters asking for detailed information."

Almost every letter indicates that the maps of Canada-United States roads issued by the Department of the Interior are passed from friend to friend and serve for the planning of many outings in Canada. The same applies to canoe trips—reliable information is in great demand and when one party has successfully navigated a chain of Canada's rivers and lakes, and experienced the thrill of shooting rapids, many other parties follow.

A great deal of the correspondence relates to the location of camps or cabins for fishing and hunting. The Service has been called on for information on big game hunting from Labrador to northern British Columbia, and has been instrumental in directing enquirers as to where to outfit and obtain guides in every province. The correspondence indicates that the percentage is increasing annually of persons who want to linger in Canada and have a stake in the country in a lodge or cabin to which they can return each year. Assistance rendered them in choosing suitable locations is most gratefully acknowledged.

The Natural Resources Intelligence Service of the Department of the Interior, in addition to sending out maps and tourist literature, sent to Americans planning to visit the Dominion, a leaflet on "How to Enter Canada" in which the Canadian Customs' regulations are briefly outlined. Motor vehicle and tourist outfit entry forms are also sent in order that these may be filled in by the tourist and thus expedite his passage across the border. All these helps are much appreciated, and the letters indicate a uniform courtesy on the part of Canadian Customs' officials and that the delay experienced at border points is at a minimum consistent with the observances of the regulations.

### Famous Canadian Guide

Peter Erasmus, guide to Dr. James Hector, geologist and geographer to the Palliser Expedition in 1858 and 1859, was born at Red River Settlement, in 1833, and is still living at Goodfish Lake, Alberta, the sole survivor of the members of the Palliser expedition.

Tourist—"How far to Pleasantville?"  
Native—"13,650 billboards."

"Where is your son?"  
"I have put him in the cellar to fetch a bottle."—Journal Amusant, Paris.

# Stop Childrens' Coughs With Mathieu's Syrup

## WORLD HAPPENINGS BRIEFLY TOLD

Plans are being made for construction next spring of an airport at Chicoutimi, Que., for land and sea planes.

The financial collapse of Russia is imminent, according to a ministerial statement in the British House of Commons.

A tri-city air service between Seattle, Victoria and Vancouver and a service between Seattle and Alaska will be started next April by the Union Air Lines.

By the end of this year it is expected that the British Columbia government will have prepared for Lord Lovat a settler scheme, Premier Tolin says.

The Graf Zeppelin will make no second trip to America this year. The Zeppelin works in announcing this, said that the necessary supply of gas was not available.

Major Yochio Inoue, councillor at the Japanese embassy at Buenos Aires, who was drowned in the sinking of the Vestris, has been posthumously promoted to lieutenant-colonel.

The Canadian Memorial Chapel, a sanctuary in memory and in honor of the seventy thousand Canadians killed in the war, and erected in Vancouver through the efforts of Lieutenant-Colonel the Rev. G. O. Falls, B.D., C.B.E., has been opened there.

**It Will Relieve a Cold.**—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passage of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will usually stop the cough because it allays the irritation in the throat. Try it and prove it.

### Early Use Of Wood-Pulp

Paper was first made in Canada about 100 years ago, but prior to 1860 no wood-pulp was used in its manufacture, rags being the chief raw-material.

### Minard's Lintment For Chapped Hands.

British scientist says he has discovered that what goes up need not necessarily come down. Odd stuff. Did he never hear of the coat of living?

## Short of Breath Smothering Feelings Choking Sensation

Mrs. H. Day, Dartmouth, N.S., writes:—"For over a year I was troubled with smothering spells and shortness of breath, and it was impossible for me to walk, even a short distance, because of the choking sensation which followed."

After trying many treatments, in vain, I at last decided to try

and in a surprisingly short time they did me much good.

## Branch Line Construction

More Than 330 Miles Of New Lines and 71 New Stations Built By C.P.R. In Past Season

The building of more than 330 miles of new branch lines, with 71 new stations and shipping points came up in brief the construction programme of the Canadian Pacific Railway in Western Canada during the past summer, according to D. C. Coleman, Vice-President, Western Lines. By this means hundreds of farmers had been brought much closer to transportation facilities, and thousands of acres of rich agricultural land had been made much more attractive from the settler viewpoint. The construction programme has gone forward rapidly, and as a consequence a considerable amount of this year's crop is being marketed over the new trackage, Mr. Coleman pointed out. A feature of the branch line construction was found in the rapidity with which settlement followed the laying of the steel. Country elevators to the number of approximately 300 were already built or in the course of construction, while in many cases towns were beginning to spring up around the newly erected station buildings.

## Windolite

Improved Glass Substitute Is Now Available In Canada

"WINDOLITE"—the English unbreakable improved glass substitute which is now so popular in the British Isles, is being marketed in Canada by John A. Chantler & Co., Limited, 40 Wellington St. West, Toronto, Ontario.

Several tests carried out in England, showed that "Windolite" is remarkable, not only for its unbreakable qualities and ultra-violet ray penetration, but it was found that "Windolite" will stand up under usage that would wreck many other glass substitutes.

The fact that "Windolite" is translucent allows 100 per cent. sunlight with the life-giving ultra-violet ray to enter, opens a wide scope of practical uses, the importance of which will at once suggest themselves.

Windolite consists of transparent solution, reinforced with fine special galvanized wire mesh, which results in a substance that is completely waterproof, airtight, and dust-proof. It is flexible and unbreakable, and may be readily cut with the ordinary pair of scissors, to any required size. It therefore forms a practical substitute for glass, and where transmission of ultra-violet radiation is required to promote health and growth, it is ideal. These beneficial rays are vital to young chicks, laying hens, dairy herds, and live stock, and also are economical for nurseries, hospitals, schools, and for hot beds and plant coverings. It is light but strong.

Quoting from some British authorities, they have the following to say of "Windolite":—"A well-known poultry breeder, member of S.P.B.A., N.U.P.S., and National Farmers Union, whose farm is a Certified Breeding Station, under the Ministry of Agriculture and Fisheries, says of Windolite: 'I have proved to my satisfaction the benefits obtained from the use of Windolite in my brooder house. I replaced the ordinary glass on one side only with your substitute, and although it has been in use only a matter of a week or ten days, the results are very marked. The chicks on this side are doing very much better than those of the other. I have kept both sides indoors for the purpose of noting the results.'"

"British Medical Journal," April, 1929:—"Windolite has been used by poultry keepers and market gardeners as a substitute for glass, but it is now suggested that as it allows ultra-violet rays to pass much more freely than ordinary glass, it may be of use in medicine. It has been examined for us and it is found that it lets the ultra-violet rays through freely."

Bishop's Castle, Shropshire:—"I shall be pleased if you will send me as quickly as possible—I have had a frame in use for nearly three years, and it has proved very satisfactory." (Signed) C.W.D.

This effective glass substitute will no doubt become very popular with stock breeders, dairy men and poultry breeders. It should also be a boon to mining camps and prospectors who cannot pack glass successfully over rough trails without breakage. It will stand up under rough treatment, and has the added advantage of being flexible.

Corn disappear when treated with Holloway's Corn Remover without leaving a scar.

### Milk For Dairy Factories

The approximate amount of milk required to supply dairy factories in Canada during 1929, based on the quantity of milk delivered and the equivalent in milk of the butter fat content of the cream delivered, was 7,118,940,782 pounds.

Minard's Lintment For Asthma.

## THE EASY WAY

Thousands need cod-liver oil to increase vitality and build up resistance.

## Scott's Emulsion

Is the easy and pleasant way to exact the most out of cod-liver oil to reinforce your body with strength to build resistance.

Sold at 25c per bottle, Toronto, Ont. 25-38

## Consolidated Wheat Pools

Have Marketed Huge Amount Of Grain During First Five Year

During the first five-year period the consolidated pools of the three western provinces have marketed approximately 750,000,000 bushels of grain, coarse grains included, with a total turnover in money exceeding \$1,100,000,000. During that time the three pools have accumulated through elevator deductions and commercial reserves, which belong to the grower, over \$30,000,000.

## WHEN YOUR BABY CATCHES A COLD

In spite of all precautions little ones will take colds—especially during the changeable days of our Fall season. When the first symptoms appear—sneezing, redness of the eyes, running nose—Baby's Own Tablets should be given at once. They will rapidly break up the cold and prevent more serious complications.

Mothers who keep a box of Baby's Own Tablets in the home always feel safe. In fact they are like having a doctor in the home. They are a gentle but thorough laxative that sweeten the stomach and regulate the bowels, thus driving out constipation and indigestion and relieving the baby of the many childhood ailments which are the direct result of a clogged condition of the bowels or sour stomach. They are absolutely safe—being guaranteed to contain no drug at all harmful to even the youngest babe. They cannot possibly do harm—they always do good.

Baby's Own Tablets are sold by all medicine dealers or will be sent by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Volcanic Dust

Volcanic dust found in Saskatchewan and British Columbia is used for purposes similar to ground pumice, particularly in the manufacture of cleansers and scouring powders, and in some instances as a substitute for fuller's earth in the refining of hard oils and fats.

## SUNDAY SCHOOL LESSON

DECEMBER 2

PAUL BEFORE HIS JUDGES

Golden Text: "I was not disobedient unto the heavenly vision."—Acts 26:19.

Lesson: Acts 24:1-26:32.

Devotional Reading: Psalm 25:1-6.

Explanations and Comments

Paul Before Felix and Drusilla, 24: 24:1-26:32.—Felix supposed he might persuade Paul that he and Drusilla might hear him in regard to his faith in Jesus Christ. Drusilla was a Jewess, the daughter of Herod Agrippa I. (whose death is narrated in Acts 12: 20-23).

Paul talked about matters pertinent to the conduct of Felix; righteousness.—Felix supposed he might persuade Paul that he and Drusilla might hear him in regard to his faith in Jesus Christ. Drusilla was a Jewess, the daughter of Herod Agrippa I. (whose death is narrated in Acts 12: 20-23).

Paul talked about matters pertinent to the conduct of Felix; righteousness.—Felix supposed he might persuade Paul that he and Drusilla might hear him in regard to his faith in Jesus Christ. Drusilla was a Jewess, the daughter of Herod Agrippa I. (whose death is narrated in Acts 12: 20-23).

## Are You Ready

## When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them, but you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner does than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler pains of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.

## Dairy Industry Flourishing

Outlook Never Appeared Brighter

"Than At the Present Time"

"The outlook of the dairy industry in Canada never appeared brighter," says Dr. J. A. Riddick, commissioner of the dairy and cold storage branch of the Department of Agriculture. "The value of our dairy production this year will be around \$265,000,000. We have approximately 3,800,000 milch cows in Canada. They are in every province although Ontario and Quebec have the most. While the cheese production is not a record one this year, it is very high. About 100,000 boxes more will be exported in 1928 than in 1927. Canada produced the most milk in its history this year."

To avoid the run-down feeling approach crossings carefully.

## WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out colds—will not crack or chip,—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but one width of 36 inches only. One square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 120 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Use WINDOLITE and let

YOUR PLANTS

YOUR CHICKENS

YOUR CATTLE

Bask in 100 % Sunlight.

## TEST MILLING AND BAKING VALUES OF 1928 WHEAT

Regina.—Milling values of the various grades of 1928 wheat and the possibility of introducing the protein test into the grading system were discussed at the annual delegates' meeting of the Saskatchewan Wheat Pool, when Dr. F. J. Birchard, chemist in charge of the Board of Grain Commissioners' grain research laboratory, attended with an exhibit of bread baked from standards and averages of the various grades of wheat from the 1928 crop.

Dr. Birchard has his introductory comment on the report which was issued from his laboratory some time ago in which it was stated that the lower grades of wheat from the 1928 crop, most of which are heavily damaged by frost so far as physical appearance goes, are appreciably better in quality than similar grades of the 1927 crop. He read to the delegates the comment accompanying the milling and baking data in his report and was then subjected to frequent questioning.

Dr. Birchard, in his statements believed that, generally speaking, frost and the effect of deteriorating the quality of the protein in wheat but that this was not the case this year to the same extent as usual, owing to the fact that the frost came at a time when the grain was fairly mature.

In answer to a question as to whether results from an experimental mill should be considered as fairly comparable with those to be expected from a commercial mill, Dr. Birchard answered: "Absolutely, otherwise why do all commercial mills maintain chemical laboratories."

Asked as to whether the mills use No. 6 wheat for the manufacture of flour, Dr. Birchard answered that they had, and said that from his experience he would say that they were using as high as 100 per cent. of No. 6. He showed however that there was a gradual decrease in the percentage of patent flour from the One Northern and Six wheat, the actual percentages in his tests having been 63.4 per cent. for the One Northern, and 60.2 per cent. from the Six wheat. The weight per bushel likewise decreased gradually from 44 pounds per bushel in the case of One Northern to 41 pounds in the case of No. 6 wheat.

## Believes U.S. Election

### Verdict For Prohibition

May Mean Showdown With Canada Over Liquor Exports, Says Official

Detroit, Mich.—One of the highest prohibition enforcement officers in the United States, set behind a desk in a large office building here, and summarily expressed his opinion about the future of legalized rum exporting into this country.

"A country that condones and abets the exportation of liquor into a neighboring state where liquor is prohibited cannot honestly command the respect of God or man. Obviously, the presidential verdict can be interpreted also as an overwhelming verdict for prohibition, and a showdown with Canada naturally can be expected," he said.

### Asked To Expedite Treaty

Ottawa.—Recent communication has been received from the British government asking that Canada expedite the reply regarding the replacement of the arbitration treaty between the British Empire and the United States, that expired last June. It is possible that a request may have been forwarded and not yet received here.

### Draws Attention To Claim

Ottawa.—Admitting that he threw a stone through a window of Rideau Hall, the residence of the governor-general, in order to draw attention to his claims for pensions, William H. Coulter was fined \$2 and costs and ordered to pay \$2 for the repair of the window by the magistrate. Coulter said he picked out a small window so the damage would be less.

W. N. U. 1761

## Announce Delegates To Air Conference

Winnipeg Postmaster Will Be Member Of Canadian Party  
Ottawa, Ont.—Announcement has been made here that D. J. Desbarats, deputy minister of national defence will head the Canadian delegation which will attend the international conference of civil aeronautics to be held in Washington, D.C., December 12 to 14, inclusive.

Accompanying Mr. Desbarats will be P. T. Coolican, assistant postmaster general; J. A. Wilson, controller of civil aviation; T. T. Bower, postmaster at Winnipeg, Man.; and Wing Commanders J. L. Gordon and E. W. Steadman, of the Royal Canadian Air Force. A number of others directly interested in aviation are expected to join the delegation.

Orville Wright, of Dayton, Ohio, has been designated as the guest of honor at the international gathering in recognition of his successful pioneering in aviation, while a number of outstanding figures in the field of aviation are expected from the British Isles.

Wellington, N.Z.—H. R. Dix, representing the New Zealand Aero Clubs, and Captain N. H. Barlow, of the New Zealand Air Force, sailed for Vancouver. They will represent New Zealand at the international aeronautical conference which opens in Washington, December 12.

## Make Preparations For Closing Of Navigation

Ship Owners Ask For Final Sailings On Great Lakes

Ottawa.—In preparation for the close of navigation all ship owners have been requested by the department of marine to advise when their last vessels will leave the heart of the Great Lakes. Failing an agreement between United States authorities and owners across the border, the department has been unable to arrange for navigation to close on December 7 as was hoped.

All Canadian lights and fog alarms on Lake Superior will be kept in operation until the close of navigation, with the exception of Caribou Island which may close on December 8, and be replaced by an unwatched flashing gas light; Otter Head, Davieux Island, Quebec Harbor and Michipicoten Island, East End, which may close on December 12, and Ile Parisienne which may close on December 15.

## To Raise Farming Profession

Herman Trelle Thinks Farming Should Be On Level Of Other Professions

Toronto.—"If there is anything I can do in the way of taking the boy seed out of farming, I'm going to do it," Herman Trelle, the world's wheat and oats king, said upon his arrival here to attend the royal winter fair, where he has numerous grain exhibits. "Why shouldn't the farmer be an educated, cultured man, the same as those who follow any other profession?"

In 1928 Mr. Trelle produced 15,500 bushels of entirely registered seed grain, with the whole output placed at the disposal of the Alberta government, which pays him a premium for his product.

He has won championships in virtually every province in Canada and is the holder of 21 cups. Mr. Trelle has won every trophy but one in the Dominion. At the winter fair he is exhibiting wheat, oats and peas, all grown under the same conditions which produced him honors in other years.

## Ready For Grain Probe

Commission Will Hold Hearings In Saskatchewan During December

Regina.—The Royal Grain Commission, appointed by the Saskatchewan Government, will hold hearings in various parts of the province during December, to investigate the system of grading, handling, mixing and marketing wheat. The commission will consist of Chief Justice Brown, chairman; John A. Stoneman, president of the United Farmers of Canada, Saskatchewan section; Dean Rutherford, of the Saskatchewan College of Agriculture; F. Hedley Auld, deputy minister of agriculture; and H. F. Thomson, K.C., and W. E. Proctor, counsel for the commission.

## NOTED MISSIONARY HONORED

Sir Wilfred Grenfell, noted missionary and doctor of Labrador, who was elected rector of St. Andrew's University, in England, defeating Lord Melchett, the former Sir Alfred Mond, by a majority of 157 votes.

## Empire Goods Are Given Preference

Hoped New Regulations Will Help To Stimulate Production

Ottawa.—Hon. W. D. Euler, Minister of National Revenue, announces that after February 1, goods entering Canada under British preferential rates must be of Empire material and labor. The present percentage of Empire materials and labor now required is 25. The new regulations will, it is hoped, stimulate production within the Empire.

A corresponding provision has been made with regard to imports under the intermediate tariff under special treaties and conventions. Hon. J. A. Robb, in the House last session, intimated that it was proposed to increase from 25 to 50 the percentage of Empire labor and materials required in goods qualifying under British preferential rates.

## Saskatchewan Legislature

Announcement Officially Made That Sessions Will Open Dec. 4

Regina.—Lieut.-Governor Newlands will officially open the fourth session of the Sixth Saskatchewan Legislative Assembly at 3 o'clock Tuesday afternoon, December 4. Premier J. G. Gardiner has officially announced.

The debate on the address in reply to the speech from the throne will open on Thursday, December 6. The honor of launching the debate this year will fall upon Chas. McIlroy, M.L.A. for Kinsington, who will move the address, while Dr. J. T. Waugh, the newly-elected member for the Arm River constituency, will be the seconder in a maiden speech.

## Manitoba Liquor Prohibits

Winnipeg.—The Manitoba government liquor control commission realized gross profits of \$1,493,700.60 for the fiscal year ending April 30, 1928. The net profits amounted to \$1,345,117.25, according to the public accounts prepared for the provincial government.

## Giant Fokker For West

First Tri-Motored Airplane For Use In Western Service

Winnipeg, Man.—The first tri-motored airplane for use in Winnipeg and the West will be brought here this week by W. L. Brintell, operating manager of the Western Canada Airways, Ltd.

It is a big Fokker machine similar in construction and power to the famous "Southern Cross" which caused world-wide attention when it bridged the Pacific Ocean last year.

The big Fokker has a 72-foot wing spread, two feet longer than the big Ford plane brought to Manitoba for testing purposes by Bert Balchen and the late Floyd Bennett, early last spring. It has a capacity for 10 passengers, and if the baggage and express are light, for 15.

In commenting on the mail contract let to the Western Canada Airways by the Dominion government, Mr. Brintell drew attention to the fact that the service will be in operation for the three shortest flying weeks of the year, December 10 to 29. That would shorten the flying hours, but the company, he felt sure, could "make the grade" without trouble. A spare Fokker super-universal monoplane would be kept in readiness at Regina in case of mishap to another machine.

Public sentiment and public support would make it possible to carry on the mail service as a regular service, Mr. Brintell said.

## Grain Elevator For Churchill Terminus

Will Have 1,125,000 Bushels Capacity According To Plans

Port Arthur, Ont.—The C. D. Howe Company, of Port Arthur, has been commissioned to prepare plans for a terminal grain elevator of 1,125,000 bushels capacity to be erected at the Churchill terminus of the Hudson Bay Railway.

It was stated at the Howe Company offices that while a start has not yet been made, the proposed elevator is to be after the same general plan as the terminal elevator at Port Arthur and Port William, with certain possible modifications regarding the facilities for loading ocean vessels.

This will depend upon local conditions relative to exact location of the plant and whether tide water will have to be considered. Information concerning this has yet to be obtained.

It was also stated at the Howe Company offices here that no information had been received concerning plans for a Hudson's Bay elevator for the wheat pool. C. D. Howe is now at the Pacific Coast and may have some correspondence in this connection, but that is considered hardly probable here.

## For Church Union

Edinburgh, Scotland.—The assemblies of the Church of Scotland and the United Free Church of Scotland, both voted by overwhelming majorities in favor of the union of the two churches. Final decision on the question will be made at the next assemblies in May. Both churches are Presbyterian in doctrine.

## DRIVES LAST SPIKE

R. D. Stewart, founder of the Stewart Valley Settlement, in Saskatchewan, achieved a long standing ambition when he drove the last spike on the Atkins Northby branch of the Canadian Pacific Railway recently. Heavily Smith, of Stewart Valley, held the spike, and every member of the community turned out in appreciation of the historic occasion. "Put your hands to the plow and work this railway to its utmost capacity," Mr. Stewart urged, when pointing out the value of the new line to the settlers.

## HERMAN TRELLE IS WINNER AT TORONTO FAIR

Toronto.—Herman Trelle, of Wembley, Peace River District, was awarded gold championship for hard spring wheat, at the Royal Winter Fair.

Manitoba won first and fifth on durum wheat, R. Brockington, of Melita, was first, and Alf Wood, Glenboro, fifth, while second place went to William Darnbrough, of Laura, Sask. Samuel Larcombe, of Birtle, won third on early oats with a fine sample of Alaska.

The champion ribbon and silver trophy for the best half bushel of wheat at the show went to Herman Trelle, Wembley, Alta., on a sample of Heward, which adds another victory to his already remarkable winnings, partially won at the International show, Chicago.

Champion half bushel of barley went to W. E. Darnbrough, Laura, Sask., on O.A.C. 21. Championship for oats was won by Wm. Darnbrough, Laura, Sask. The winnings in the classes judged were as follows:

Spring wheat except durum: First, Herman Trelle, Wembley, Alta.; second, W. A. Darnbrough, Laura, Sask.; third, Wm. Pierce, Birtleman, fourth, S. Crossman, Laura; fifth, W. E. Darnbrough, Laura; sixth, P. E. Smith, Swan River, Man.; seventh, Paul Bräulien, St. Flavie, Que.; eighth, J. E. Niess, Wauchope, Sask.; ninth, J. W. McGhie, Marquis, Sask.; tenth, P. J. Rock, Morris, Alta.; eleventh, Alf Ripley, Indian Head, Sask.; twelfth, P. F. Robbins, Shaunavon, Sask.; thirteenth, Nels Skillestad, Chatham, Ont.; fourteenth, the thirteen prizes go to western Canada and there were fifty-seven entries. First for durum wheat fell to P. Brockington, Melita, Man., with W. E. Darnbrough and Wm. Darnbrough, Laura, Sask., second and third. Fourth went to Brown, of Millbrook, Ont., fifth to Alf Woods, Glenboro, Man., and sixth and seventh to Guelph and Udon, Ont. men. There were ten entries.

There were sixteen entries in early oats with Weshburn, Millbrook, Ont., first on Alaska; Wm. Darnbrough, Laura, second on Alaska; S. Larcombe, Birtle, third on Alaska; with fourth to McCutcheon, Guelph, and fifth to W. Colahan, St. Catharines, Ont.

Oats other than early were 38 in number of which William Darnbrough was first, and champion, and Trelle second, on Victory in each case. Third fell to Nels Linden, Wetsask, Alta.; and fourth to J. H. B. Smith, Wolf Creek, Alta.; also on Victory. Fifth went to McCutcheon, Guelph, and sixth to Paul Beaulieu, of Quebec. Hansmeyer, Vegreville, had seventh, Wm. Whitecock, Kelwood, Man., eighth; S. Larcombe, Birtle, ninth; J. F. Field, Regina, tenth; P. J. Rock, Morris, Alta., eleventh.

## Aviator Has Narrow Escape

French Plane Falls Five Miles But Lands Safely

Villa Couilly, France.—The French pilot, Le Moigne, attempting to break the world's altitude record, lost consciousness when his oxygen inhaler failed at 30,000 feet, and fell nearly five miles before he regained his senses approximately 4,000 feet above the ground. He righted his plane and landed safely.

Le Moigne had been in the air one hour and ten minutes when his oxygen failed.

## May Serve On Commission

London.—It is definitely settled that the United States shall be invited to serve on the new reparations commission and also that the commission should draw up a scheme for capitalizing and commercializing Germany's reparations liabilities so that bonds can be sold to private investors.

## Is Still Walking

New Orleans, La.—Eight years ago George Nemeth, 25, left the university he was attending to take a walk because the physicians said that was the only way he could recover his failing health. Last week Nemeth walked in and out of New Orleans on his eighth trip around the world.

## Here and There

(153)  
The Western Canada ski cham-  
pionships of combined ski events  
will be held in Banff again this  
season in conjunction with the  
Banff winter carnival, due to take  
place next February. It has been  
decided upon. Such famous skiers  
will probably be in attendance as  
Norman of Revelstoke, Teddies of  
Vancouver, last year's western  
representative at the Olympic  
games, and Nordmo of Canmore.

"Once upon a time there were  
sixty foxes who didn't wear pants  
and didn't wear shoes, but they all  
went travelling in a big box."  
A parody on A. A. Milne's famous  
nursery rhyme is inspired by a  
shipment of sixty black and silver  
foxes who passed through the Wind-  
sor Street Station recently en route  
to Switzerland from Calgary. They  
were "under the wing" of the Cana-  
dian Pacific Express, who saw  
that the animals got their diet of  
raw meat regularly.

The case of a motorist being  
stricken with "buck fever" and put-  
ting his car into the ditch in his  
excitement has been reported from  
the Nipigon district. While driv-  
ing along the highway between  
Nipigon River Bungalow Camp and  
Port Arthur the motorist was start-  
led when a deer appeared on the  
road before him. Whether he tried  
to chase the animal or forgot he  
was at the wheel, he does not state,  
but when he recovered his senses  
he and his car were in the ditch.  
Little damage was done.

The building of more than 400  
miles of new branch lines, with 71  
new stations and shipping points  
sums up in brief the construction  
programme of the Canadian Pacific  
Railway in Western Canada during  
the past summer, according to D.  
C. Coleman, Vice-President, West-  
ern Lines. By this means hun-  
dreds of farmers had been brought  
much closer to transportation facili-  
ties, and thousands of acres of  
rich agricultural land had been  
made much more attractive from  
the settlers' viewpoint.

"I can say, without any hesita-  
tion that Canada is the best coun-  
try in the world for farming at the  
present time. It has greater pos-  
sibilities, and there are indications  
that there is greater stability and  
prosperity than can be found in  
any other country," said Dr. E. S.  
Archibald, director in charge of the  
Dominion Experimental Farm at  
Ottawa, addressing the Young Men's  
Canadian Club in Montreal. Dr.  
Archibald said the crops in Cana-  
da are worth \$157,000,000, which  
alone is equal to the fisheries,  
and forests all put together.

The province of Alberta generally  
will receive more game fish than  
ever before, was the opinion of J.  
A. Robb, superintendent of fish cul-  
ture of the Department of Marine  
and Fisheries, who was a recent  
visitor to Calgary. The whitetail  
hatchery just opened by the Domini-  
on Government in Lesser Slave  
Lake will help the commercial fish-  
eries, he said, while sport in the  
neighbourhood of Banff, the Rocky  
Mountain resort, will be greatly  
improved by the advanced fry and  
fingerling game fish that have been  
placed in the streams. The hatch-  
ery at Banff, he added, will be ex-  
tended slightly.

In the Matter of the Estate of  
**AMELIA FITZLER**, late of  
Puyallup, Washington, de-  
ceased.

NOTICE is hereby given that all  
persons having claims against the  
estate of the above named **AMELIA**  
**FITZLER**, who died on or about the  
13th day of March, 1927, are required  
to file with Christie H. Pitzler, Stony  
Plain, Alberta, by the 26th day of  
December, 1928, a full statement duly  
verified of their claims, and of all  
securities held by them, and after  
that date the administrator will dis-  
tribute the assets of the deceased  
among the parties entitled thereto,  
having regard only to the claims of  
which notice has been so filed, or  
which have been brought to his  
knowledge.

### Stony Plain and District.

#### IT PAYS TO PAY CASH.

Mr and Mrs Jac Miller returned, Monday, to their home at Wembley.

Mr and Mrs Comisarow made a motor trip to Edmonton on Sunday.

Albert Gaetz of Blueberry was taken late Saturday night to Edmonton, for treatment. Albert's recent actions have been causing his friends some anxiety.

Stony Plain Centre S. D. trustees are advertising for a teacher, duties to commence after the holidays.

Mr Ernest Breikreutz has sold his farm near Golden Spike to Mr Jac Schram for \$4500.

Wohlesin, eat apples; get 'em at Hardwick's.

The recent announcement of the Family Herald and Weekly Star to give a year free with a two year subscription appears to us a move in the right direction. Not that the Family Herald needs to reduce its price; it is recognized that at \$1 per year it is the greatest value in Canada today. The "year free" offer [therefore, means this—the subscription is still one dollar for one year, but for two dollars you receive a subscription for three years instead of two years.

Hundreds will literally leap at this big offer and well they may. When one considers that for a two dollar bill you can have a paper of the calibre of the Family Herald and Weekly Star coming to your home for three full years—it goes without saying that it is a somewhat tempting offer.

In farm papers the Family Herald and Weekly Star, Montreal, leads them all. One dollar a year, or three years for \$2, and with it a superb magazine free.

Mr John Meyer of Heath-erdown, charged with theft of grain, an account of which appeared in last week's Sun, was given three months at Fort Saskatchewan by Judge Tweedie.

There will be a concert and dance at Rosenthal School-house Wed. Dec. 19.

### The Domestic Animals Act (Municipalities)

#### Sale and Redemption of Impounded Animals (Sec. 48.)

Notice is hereby given under section 48 of The Domestic Animals Act (Municipalities) that I Brown Horae, two white hind foot, star on face, brand LA Y, was impounded in the pound kept by the undersigned, located on the south half sec. 22, Tp. 51, Range 1w5th; E. E. Sites, Stony Plain, on the third day of NOVEMBER, 1928, and that the said animal was sold on the 22nd day of NOVEMBER, A. D. 1928, to R. Kincaid, Stony Plain, and that the said animal may be redeemed by the owner or his behalf within a period of thirty days from the publication of this notice in the Alberta Gazette, upon payment of all fees and costs due to the Municipality and the purchaser of said animal.

For information apply to the undersigned.

E. H. PIDGEON,  
Sec.-Treas. of the Municipality of Inga No. 520.  
Post Office, Duffield

### Cleaning, Pressing, Repairing.

All Work Satisfactorily Done.

Mrs. W. G. Hopkins  
West of Miller's Garage.

### Death of Ray Hyett.

There passed away, Monday, Nov. 26, at his father's residence, Garden Valley, Ray Hyett, in his 41st year. Deceased had been under the doctor's care for some time. Ray had a host of friends in this district and Edmonton. The funeral took place yesterday. A service was held in Stony Plain United Church, conducted by the pastor, Rev G A Sauder. Interment was made in Idga cemetery.

### United Church Notes.

A number of new chairs have been purchased by the Spruce Grove Ladies' Aid.

On Sunday last the sermon was based on Prov. 3:6 "In all thy ways acknowledge Him and He shall direct thy paths."

Regular services next Sunday at Spruce Grove, Holborn and Stony.

### Silver Wedding at Garden Valley.

The silver wedding celebration of Mr and Mrs Jacob Ulmer, old-time residents of Garden Valley, took place on Sunday last, Nov. 25th. A large assembly of friends and neighbors were present to congratulate the worthy couple on their anniversary; and they received scores of appropriate presents. Music, games and serving of dainty refreshments helped pass a very pleasant evening.

### Golden Spike.

The funeral of the late Mr Philip Schoepp took place on Thursday afternoon last. Services were held at the house and at the Lutheran church by Rev Hanneman. Interment took place in the local cemetery. A daughter, Mrs John Meyer of Wembley, arrived in time to be present at the burial. There was a large turnout of friends and neighbors at the funeral, to testify to the high esteem in which deceased was held.

The matter of great interest here at the present time is the outcome of the case in which Mr L Heichel Sr is charged with an infraction of Prairie Fires Ordinance. The case has been dragging on now for over four weeks.

### Card of Thanks.

The widow and family of the late Ph Schoepp wish to thank all those friends for their expressions of sympathy and for the beautiful floral offerings received, on the occasion of their recent bereavement.

### Spruce Grove News

Mr Peter Shultz, who held the big sale last week, will leave shortly for Seattle, to join his brother-in-law, Mike Treit. He will be accompanied by his wife and two children.

Mr M Duckelke motored back from Telfordville on Monday, coming round by Leduc and Edmonton, owing to the Holborn ferry passage not being safe.

There is talk here of a plebiscite being taken at the next Municipal election to determine whether Councillors will be elected in the District at large, or in divisions as at present.

The Police were called here Thursday on an alleged cattle theft case. Thru a misunderstanding, a cow had been sold against which there was a feed bill. The matter was amicably settled.

L Javorsky is baling wheat straw, for shipment to the lumber camps West, having received an order for a carload.

Note the auction being held next Wed. Dec. 5, at the Ph Schoepp farm, Golden Spike, by Auctioneer Brox.

### The Domestic Animals Act (Municipalities)

#### Sale and Redemption of Impounded Animals.

Notice is hereby given under Section 48 of the Domestic Animals Act (Municipalities) that one Brown Horae, one white hind foot, brand OC, was impounded in the pound kept by E. E. Sites, located on Section 22, 51, 1, west 5th, on Saturday, the 2nd day of NOVEMBER, 1928, and that the said animal was sold on the twenty-first day of NOVEMBER, 1928, to E. Badke, of Stony Plain, and the said animal may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animal.

For information apply to the undersigned.

E. H. PIDGEON,  
Sec.-Treas. of the Municipality of Inga No. 520.  
Postoffice, Duffield, ALBERTA.
